Hi Sara,

Can you please tell me the actual total expenses for 2017-2018?

Thank you.

Kimberly Crisp

Dear Mrs. Crisp,

After reading your false and defamatory accusations towards Sara, our board, and the MDC, and in spite of the personalized treatment we have attempted to provide to you; your future requests must be directed to the portal indicated below. This will allow us to legally track and account for your requests.

On a personal note I vehemently denounced and deny your recent derogatory, false, wreck less, and misleading statements surrounding our willingness to timely and willingly produce the

information you previously requested from the MDC. I also denounce and deny the repulsive, derogatory, and false accusations you have publicly made about the MDC, our past and present board members, the city council, the employees of the city of Midland; and the many moral, responsible, ethical businesses, institutions and governments that we have partnered with since the creation of our organization.

Respectfully,

Brent D. Hilliard
Chairman

Dear Mrs. Crisp,

I personally caution you about making any further false or defamatory statements, made directly or indirectly regarding me personally and demand that you remove those immediately from all your written or oral public statements or be prepared to answer for all such statements in a court of law. Those include allegations of corruption and cronyism.

Respectfully,

Brent Hilliard

Mr. Hilliard,

If you could please inform me where you found the statements mentioned in your email, we would certainly be interested in addressing them accordingly. This team has a vested interest in running this campaign in a legal, transparent, and Godly way. It is not the goal of this campaign to personally attack any individual or mislead anyone. Instead, it is our mission to give voters (be they majority or minority) a chance to cast an informed ballot against the status quo with regards to the use of their hard earned tax dollars.

Sincerely,

Taylor Crisp

Good morning,

I refer you to your campaign web site wherein you reference the MDC's leadership is guilty of corruption of cronyism. The are crimes in our State! (I am the Chairman of the MDC, but acting here in my individual capacity.) There are numerous other false, misleading, and untrue statements on the web site. Bulldozing your way to a victory is going to have unintended consequences. I have not reviewed the videos and other material you have propagated to the public, so I will leave it up to you and God (as you point out below) to figure out what God would do in your circumstance.

It is my belief that Kimberly Crisp has committed moral turpitude and if it continues I intend to report her actions to the Texas Board of Examiners of Psychology. I will also file suit on Monday July 15, 2019 seeking damages as well as a restraining order if these and other false and misleading statements are not removed from all your material. If I determine that I have been damaged by her accusations or statements, I will also file suit to recover damages for the same.

Mrs. Crisp seemingly has spent several years working to achieve a degree for a work that is much needed in our community. I would hate to see her life time achievements damaged or taken away by something like her current actions. How will the parents of her clients view these inappropriate actions? How can one council to others with the public display of her hatred, anger, and malice statements? It seems such a waste to have her current actions litigated in such

a public way. There are other ways to win that are more civil, pulling a community together rather than dividing it.

Similarly, I have worked hard to develop all of my businesses, my personal reputation, and my family name. I intend to vigorously protect those using all available resources including but not limited to those mentioned herein.

There are so many ways our community could benefit from Mrs. Crisp's 30 years of experience. For example, the MDC recently funded TTHSC Child Adolescent Psychiatry Center in Midland.

I have worked hard to made the MDC a better place and one that makes good financial decisions, I have invested 30 to 60 hours per week for my entire time in office working to that end and also working to insure the organization is transparent and serves the tax payers and our community. I am sure there are decisions made by our board that someone disagrees with and that is certainly fine. I would not expect any decision made meet 100 percent support of our community. Seems impossible. Many others have served and committed their personal time volunteering as well; including attorneys, accountants, bankers, business people. One of our past board members is now a Justice of the Texas Supreme Court. Who would seriously accuse any of these people of committing the crimes asserted by Mrs. Crisp?

Best of luck with your campaign. Thank you for reaching out to me this morning. I look forward to seeing you run your campaign in a legal, transparent, and Godly way. Hopefully that will include not personally attacking, making false or misleading statements or accusations about any individual, entity, or otherwise.

Respectfully,

Mr. Hilliard,

I was able to find only one use of the words corruption or cronyism. I removed the sentence in which they appeared. If there are any other "false, misleading, and untrue statements" that concern you enough to specifically enumerate, I would be happy to address them. I have found

no reference to you, or any other board member directly. Thank you for your best wishes on our campaign.

Sincerely,
