

Memorandum

CITY OF DALLAS

DATE June 4, 2020

TO Honorable Mayor and Members of the City Council

SUBJECT **One Dallas: R.E.A.L. Change (Restore Trust and Build Relationships in Policing)**

Background

While our work is always challenging, addressing systemic issues and policing practices which have led to unrest and racial division within our community have the greatest potential to transform and unite our City. Recent events have brought international attention to the difficult relationships between law enforcement and communities of color. The opportunity to restore the public's trust is here and now. Our actions must be swift and rooted in inclusion, equity, and justice.

As the City Manager, I am committed to proactively address historical and present-day challenges which manifest in community distrust, anger, and grief. To do this, it is imperative that we work together, aligning our intentions and resources to build a foundation of trust between historically marginalized communities and law enforcement. Listening and learning from diverse voices in our community is the first step toward a more perfect union as One Dallas.

Project Summary

To move us forward, we are launching *One Dallas: R.E.A.L. Change* as a catalyst to provide a scalable action-based plan aligned with 21st Century Policing. This plan will guide our immediate, short-term, and long-term focus areas for change that will deliver solutions and outcomes that are anchored in **responsible, equitable, accountable, and legitimate efforts** to restore and increase trust within our community. The rationale for R.E.A.L Change aims for policing that is:

- **Responsible** – foster relationships that promote programs and initiatives that protect and serve all members of the community
- **Equitable** – address racial and anti-bias tendencies to eliminate barriers and focus on inequities and improving safety for all
- **Accountable**- transparent about policing processes and practices to increase community trust
- **Legitimate** – ensure policies, procedures, systems, and decision making have legitimacy to build trust

Although R.E.A.L. Change is earnestly focused on policing matters, staff is developing One Dallas key initiatives for other critical systemic ways to address economic and social equity investments paramount to our community's success. Initiatives will be designed to get to the heart of the new business case for our City. My team and I are committed to moving from conversations to action, recognizing that current programs, approaches, and capabilities are unlikely to do enough to create sustained, equitable, and economic growth necessary to level the playing field for all residents of this great City.
