

COLLIN COUNTY REPUBLICAN PARTY EXECUTIVE COMMITTEE RESOLUTION DATED October 19, 2021

Demand for Immediate Action by Governor Abbott to Perform a Forensic Audit as Outlined in HB17, proposed by Representative Steve Toth, The Woodlands, TX, and as requested by former President Donald Trump on September 23, 2021, in an effort to answer questions looming around the November 3, 2020 election and the lack of confidence in those results.

Whereas, The People of the Great State of Texas have just cause to question the results of the 2020 Election

Whereas, It is the responsibility of our government to provide for free and fair elections.

Whereas, time is running out to be able to effectively perform an audit with consequence considering the primaries are less than four months away from the date of this request.

Whereas, it is know the 2020 elections contained inadequacies and irregularities too many to count

Whereas, if the registered voters of the Great State of Texas and these United States of America cannot trust the results of our elections then the Republic has been lost and further elections will be deemed as futile.

Whereas, continuing to allow Democrats to cheat will make it much harder, if not impossible, for Republicans to win the election in 2022 and beyond.

Whereas, the current call by the acting Secretary of State for only a random sampling audit of only four counties is not adequate to create confidence and answer all questions related to election integrity and the possibility of election fraud from the 2020 elections.

Whereas, ONLY a thorough forensic audit, as outlined in HB17, of each county with a population of 415,000 or more, will suffice to answer to the integrity of our elections.

Resolved We, the Executive Committee of the Collin County Republican Party, on behalf of our constituents, the citizens of the state of Texas and of these United States of America and for their continued confidence in the election process and to protect our Republic, demand Texas Governor Gregory Abbott to act with immediate effect to perform a FULL forensic audit of the 2020 Elections, Not later than the 1st day of November, according to the terms outlined in H.B. No. 17 presented by Steve Toth. And where the law is found wanting for necessary action, we further demand Governor Abbott call an emergency or special session of the Texas Legislature, as necessary, to immediately address any such limitation and or impediment to this action.
