## Lt. Col. West Applauds 'Not Guilty' Verdict in Rittenhouse Trial

Richardson, TX, November 19, 2021 —

Lt. Col. (Ret.) West is pleased to see the rule of law triumph today regarding the case of Kyle Rittenhouse. The fact that an obvious case of self-defense was used by the corporate media and leftist politicians to divide the public and smear an innocent young man is deplorable.

Kyle Rittenhouse had to spend millions of dollars on his defense, because the prosecution was politically motivated to crucify him for the riots they allowed to occur in Kenosha. It is shameful that politics was involved in what should have been a clear-cut case, but regardless justice has been served.

Col West stated:

*"Everyone in this republic has a right to self-defense, and I am pleased that jury sided with Mr. Rittenhouse in this obvious example of self-defense. The Second Amendment is not about dove hunting, it is about protecting life and liberty. Justice, not the leftist intimidation media and mob, prevailed."*

The jury fulfilled their duty and obligations as citizens today, and because of that an innocent man can walk free. This is why the rule of law is the bedrock of our republic.
