If you did not hire the attorney, what is your connection with the attorney? Explain briefly

Philip heads up Lubbock PRIVATE Defenders' Office. He appointed me to many OPERATION LONE STAR cases but told me in no uncertain terms we cannot, shall not, plead any of our clients guilty. I did a few (5) and he got very ugly with me, cussing at me for even attempting to plead a guilty client guilty. He stopped me mid-plea during court docket and said GOD DAMMIT SYLVIA! If we'll just tell our clients to wait in jail, be patient, wait "on behalf of your bretheren" we can bust the Operation Lone Star by delaying until DPS Officers have retired. Wait two years! he said. These are misdemeanors and my clients want to plead guilty and want out of jail so they can return to their home countries. He is ordering ALL the defense attorneys to not plead any clients guilty even as it is in direct opposition to my clients' wishes. His order has kept them in jail at least an 60 days. I have witnesses including other OLS defense attorneys and Prosecution, plus emails to that effect.

Wait two years! he said. These are misdemeanor criminal trespass cases and I got the State to agree to timme served with Misdemeanor A reduced to misdemeanor B! then the state agreed to No fines, No fees, waive Court costs. My clients want to plead guilty and want out of jail so they can return to their home countries, starving families and work. He is ordering ALL the defense attorneys to not plead any clients guilty even as it is in direct opposition to the clients' wishes and defense counsel advice for what is best in each case.
