

January 9, 2023

Governor Greg Abbott,

We are so grateful that Texas has remained red and even increased in conservative representation over the last two years.

Since the Texas Legislature last convened, much has come to light regarding the sexualization of Texas children. This includes the alarming discovery of pornographic, pervasively vulgar and other sexually explicit materials in our taxpayer-funded community and public school libraries.

Each of the 1,177 signers of this letter, from 168 Texas counties, is currently involved in fighting to eliminate this filth in our communities. We are organizing and coordinating efforts to protect the children within our particular school district, city, or county, but we need statewide reinforcements.

Legislative solutions that eliminate this material in every library in Texas are needed, as local policy is failing to address the problem, and the state has a compelling interest to intervene and protect Texas children.

Ultimately the responsibility will fall on the legislature. But if you designate this issue as an Emergency Item, it then has the ability to move more quickly through the process.

The clock is ticking and every day matters.

We are writing to you to ask that you designate legislation to stop the sexualization of Texas children, including ridding our schools of pornographic, sexually explicit and pervasively vulgar materials as an Emergency Item of the Governor's office so the legislature can immediately get to work to protect Texas children.

Respectfully,

Bonnie Wallace – Llano County

cc: Dan Patrick, Lt Governor of Texas
Ken Paxton, Texas Attorney General
Incoming Texas 88th Legislature
