

January 1, 2023

Dear Representative Toth,

It has come to the attention of many grassroots Texans that you are considering filing an identical amendment to Representative Slaton's Democrat chair ban. While we welcome your willingness to change your position on this policy and join grassroots Texans, we are confused as to the reason to file an identical amendment.

Last session there was tremendous pressure on Representative Slaton to withdraw the amendment, and we all know Dade Phelan and his lieutenants will do anything they can to hijack this effort and prevent members from taking an up or down vote on the policy.

We are concerned with the lack of unity from within the chamber on the Slaton amendment when grassroots Texans have been united on this issue since Slaton brought it to the floor two years ago.

When conservative *activists* are more concerned with which individual or group gets the credit for certain accomplishments, it distracts from the shared objective. We believe the same is true for conservative *legislators* in the Texas House. We are asking you to help amplify and unify the voices of conservative activists by supporting Rep. Slaton's amendment to ban Democrat chairs.

United for Texas,

Julie McCarty, True Texas Project CEO
