

REPUBLICAN CONTRACT WITH TEXAS

Because the importance of the 2024 election cannot be understated and the bonds of trust between citizens and their elected representatives must be solidified, it is necessary and proper that 2024 Candidates for the Texas House of Representatives publicly affirm their positions on important issues.

In this era of bickering, evasion, and posturing, we the undersigned candidates, to build citizen trust and protect the fruits of our labors, our children's futures, our borders, and our state sovereignty offer this simple contract with no fine print.

We agree to the following:

First, we only support the election of a Speaker that will require exclusively Republican Committee Chairs and the following Rules:

The House Rules:

- Select a Speaker of the House that will immediately set as priority the bills of this contract and the platform of the Republican Party of Texas.
- Pass rules that penalize any Committee Chairs who break quorum to avoid votes.
- Pass a rule that the House Investigatory Committee shall take sworn testimony only.
- Remove impeachment from House Investigatory Committee purview and establish a separate ad hoc committee to conduct an impeachment inquiry of only one named individual, with said committee to be nominated by the Speaker and approved by majority vote of the House.

Second, we support and will vote to pass the following legislation in the 89th Texas Legislative Session and we will encourage Committee Chairs to pass these bills out of committee.

The Bills:

- **ELECTION SECURITY:** We support a constitutional amendment and enacting legislation that authorizes the Attorney General to investigate and prosecute election crimes. We support more effective use and audit of paper ballots.
- **BORDER SECURITY:** We support legislation to defend our border in the absence of the federal government doing the same, to authorize the Texas Department of Safety to remove illegal immigrants from Texas, to eliminate financial incentives for illegal immigration, and to increase fentanyl dealing penalties.
- **CHILDREN:** We continue to support legislation that bans gender modification/mutilation of kids and bans men participating in women's sports. We support school choice but do NOT support school choice bills that include provisions such as government testing of private/home students.
- **SPENDING:** We will vote to reduce taxes and limit the increase of all Texas government spending to the rate of inflation and growth. We will not support constitutional amendments that require spending beyond legislative budgetary limits. We will vote to eliminate local taxes for maintenance and operation of our schools.
- **JUDICIARY:** We will vote for and support legislation to establish appellate court districts that are essentially equal in number of voters within each district.
- **ELECTRIC GRID:** We will vote to eliminate all green energy subsidies and to return the electric grid to a true capitalistic system.
- **LOBBYING:** We will vote to ban taxpayer funded lobbying.

Respecting our fellow citizens, we hereby pledge and sign our names to this Contract with Texas.
