to President, [REDACTED]
[REDACTED]

After further thought and consideration of your email, there are a few more things I would like to bring to your attention.

1) Why are you responding to an email regarding safety when your job is curriculum and academics?

2) Sixteen days later and the level of escalation and public outrage, you would think that President Keller would be responding.

3) If the interrogation video had been reviewed, you would not be pointing back to the UNT PD. Mary-Catherine has repeatedly gone to them and that has resulted in ZERO action nor protection.

4) Additionally, the TPUSA group have requested presence at the table events and we see that they have either not shown up or they aren't even in close enough proximity to be aware of the issues that have occurred.

4) As for calling 911, they could have beaten her, raped her, robbed her or killed her with the amount of unhinged behavior by the extremist that have become hyper focused on Mary-Catherine due to the inaction of UNT.

5) My fifth and final point, as I stated to you in my previous email, there were ZERO safety plans put into place with Mary-Catherine. They asked her to return with what would make her feel safe, to which she has responded multiple times, that the student that still celebrates the assassination of Charlie Kirk be removed from UNT. She has been in contact with UNT PD several times with proof of threats of bodily harm, to which they are ignoring.

So, I am curious to as to how many times we have to keep returning to the same PD that has yet to take actionable steps in protecting her? Plus, would you send your daughter back to a PD that treated her as a criminal, when she was the victim?
