

Celina ISD Press Statement

December 3, 2025

Celina ISD was informed of Representative Little's press conference today and the filing of a new class action suit against the District. It is the District's understanding Representative Little identified "new" information relative to alleged knowledge of the District regarding past actions by Caleb Elliott prior to his initial arrest. As with all past claims of information relevant to the investigation, the District promptly forwarded this information and the new class action suit to the independent third-party investigator and Celina PD for inclusion in their investigations. Additionally, findings on the information will be provided to the Texas Education Agency.

The third-party investigator is working diligently to complete her investigation and investigation findings as soon as possible. The District has every intention of ensuring a full investigation is conducted of any claims presented. Additionally, the District does not intend to interfere with the independent third-party investigation process and/or the investigations of Celina PD, other law enforcement, and/or the Texas Education Agency. The District continues to request CPD / law enforcement investigate all claims related to any potential criminal action by Caleb Elliott or any other past or current employee of Celina ISD.

Contrary to the statements made at the press conference today, it remains the District's intention to be thorough and transparent throughout this process with the independent third-party investigator, Celina PD and/or other law enforcement, the Texas Education Agency, and the Celina ISD community.
