ORDER ABATING PROCEEDING

This Order addresses the application of Oncor Electric Delivery Company LLC to amend its certificate of convenience and necessity (CCN) number 30043 for the Longshore switch-to-Drill Hole switch 765-kilovolt (kV) transmission line and associated facilities. On May 12, 2026, a proposal for decision was filed in this proceeding recommending the Commission grant Oncor's application and approve route 476.

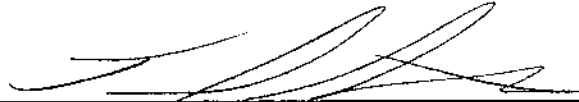

The Commission defers its decision whether to approve this CCN application until after Docket No. 59315¹ is remanded to the Commission. Because Docket No. 59315 is still pending at the State Office of Administrative Hearings, the Commission abates this proceeding² until a future open meeting.
