Re: **Dinosaur Switch - Longshore Switch 765 kV Transmission Line (PUCT Docket No. 59315)**

Oncor Electric Delivery Company LLC ("Oncor") is planning to build approximately 242.6 miles of single circuit 765 kV transmission line on single-circuit capable structures in Borden, Bosque, Brown, Callahan, Coke, Coleman, Comanche, Eastland, Erath, Glasscock, Hamilton, Hood, Howard, Jones, Mitchell, Nolan, Runnels, Shackelford, Somervell, Stephens, Sterling, and Taylor Counties, Texas. A portion of this line will cross your property on a route approved by the Public Utility Commission of Texas (PUCT). Based on public records, this transmission line will require Oncor to obtain easement rights on your property.

This document requests consent to allow Oncor and its contractors to access your property to perform various surveys needed for designing the transmission line, including land, archeological, wildlife, storm water, vegetation, geotechnical, etc. This process may involve foot traffic, ATV or light equipment, depending on the property. This document ***does not*** grant easement or construction rights.

Please signify your acceptance of our request to access your property by filling out the information below.

You may return this form to Oncor's designated right-of-way agent for this matter, Universal Field Services, by mailing it to:
